Subject: RE: availability for a meeting on Oak Ridge next Tuesday?

Could we move the meeting to tomorrow? Or even today? Shanna knows the info so well she probably doesn't need a lot of time to prepare.

I'm going to talk to Ramon later this morning. I'll let you know after that, but Kevin may be a good option and/or having a meeting tomorrow with Shanna if she is available so we can all come up to speed.

We may be able to get Kevin up to speed if that would help.

Thanks Tim and Shanna, I'll try to get them to move the meeting. If not, Cathy and I will have to try to answer their questions via phones.

I will be conducting training through most of that time and also won't be able to cover for Shanna.

Hi Glenn,

Unfortunately, I won't be available next Monday through Thursday. I'll be flying out of town returning Thursday evening and will have limited internet access. If there is anything that I can provide ahead of the meeting to assist, please let me know. I will be available Friday and the following week of the 29th.

Best,
Shanna

Shanna,

Would you be available for a meeting with HQ from 230-430pm next Tuesday (Nov 23)? Purpose is to walk through the R4 SEMD derivation of site-specific fish consumption and exposure duration for wastewater discharge from a mixed waste landfill at the Oak Ridge Reservation Superfund Site in TN. As Lorie Schmidt and I discussed, we are organizing this as an interactive 'working session' with OGC so they can better understand the rationale and supporting data/studies/analysis to inform their assessment of litigation risk associated with deviation from EPA default exposure values from CWA guidance.

I'll be driving to LA and can participate by phone but I think this call would need your detailed knowledge either way.

Thanks,
Glenn
